

Sabre® FC Foam Cleaner

Sabre FC Foam Cleaner is a cleaning spray for the removal of uncured construction foam from tools and surfaces.

Instruction for use

Use the spray nozzle on the container to remove foam from clothes and surfaces. In order to clean foam gun from inside, connect the container of the cleaning agent with the gun, by holding the gun handle with one hand and turning the upright container with the other hand. Make sure that the gun is not pointed to persons when turning it. Only after connection, turn the container together with the gun in the working position, i.e. upside down. Shake the container and clean the gun by pressing the trigger, until there is no foam in the outgoing cleaning agent. Handle with special care as the cleaner contains inflammable gas.

Not suitable for the removal of cured foam.

Fields of Applications

Used for the removal of uncured construction foam from clothes and tools as well as for the immediate inside and outside cleaning of foam gun after its use. Cleaning of window frames, windowsills, doors, jambs, etc. from uncured construction foam during work.

Application Conditions

Air temperature during use -10 °C to +30 °C.

Cleaning

Cover with inert absorbent (e.g. sand). Collect and place in a suitable container or let vaporize.
